1 Eating Point

We are passionate about delivering food to spice up corporate events.

We add taste, creativity and perhaps a dash of fun to events from 40 to 3,000 people. Companies such as Google,
BMW, ICI Paris XL, Uber, Porsche,
ING, Luminus and many more entrust us with their product launches, commercial events and employees' days.

Today, they recommend **Eating Point** because of our three main features:
Dynamic - it's all about meeting people. We maximize the encounters.
Modern - quality and design matter to us. Hip service as well.
Human - proud to be! Social interaction and CSR are paramount.
